

I listen to K-LOVE Radio on FM 91.1 out of Denver Colorado. This station is listened to by several hundred-thousand people in the area and will be missed greatly if ever replaced by an LPFM station.

K-LOVE serves the public by broadcasting positive, encouraging family-friendly music and public service announcement programming to its listeners.

Please do not replace K-LOVE with LPFM programming on our local FM translator. There is tremendous value in having this station broadcast on both a regional and national level.

Sincerely,

Keaton D Adams
Monument, Colorado
